

PROJECT INFORMATION

Project Name:
FM 1637 Water and Wastewater Line Relocations - Phase 1

Strategic Priority:
 Infrastructure - Water Transmission and Wastewater Collection

Council District(s):
 5

Type of Project: Water/Wastewater **Department:** Utilities

Project Description

This project involves the relocation of water and wastewater lines, due to the TXDOT widening of FM 1637 (China Spring Rd.). The relocated lines will be increased in size to accommodate existing demands and future growth. The project will take place in two phases, in conjunction with the scheduled road construction.

Project History

Due to rapid growth and increased traffic within the China Spring area, TXDOT has determined the need to widen FM 1637. Existing utilities within TXDOT right of way must be relocated.

Community Benefit

Relocation of the water and wastewater lines provides the opportunity to increase the size and capacity of those lines. As these lines are relocated, they will be replaced with larger size lines to accommodate future growth in the area.

Estimated Project Cost

\$9,200,000

Estimated Duration: 24 months

Project Status: 100%

Project Info Updated: 01/17/2016
